PROJECT EXPERIENCE

Holocron: Proprietary Large Language Model Infrastructure

Technologies Used:Python, React Js, TailwindCSS, TypeScript

As a key contributor to the Holocron project at Yanthraa Information Systems Pvt Ltd, I developed secure, customizable LLM infrastructure for enterprises. My work involved data preprocessing, embedding generation, query processing, and GPT-4 integration, ensuring compliance, scalability, and advanced contextual understanding for enterprise AI solutions. This strengthened my expertise in AI systems.

INTERNSHIP EXPERIENCE

Machine Learning Intern

|May 2025

During my internship at Yanthraa Information Systems Pvt Ltd, I gained practical experience in AI development, focusing on data collection, cleaning, bias removal, and annotation for LLM training. I worked on tokenization, normalization, and secure data handling, ensuring high-quality datasets for building custom AI solutions tailored to organizational needs.

ServiceNow Internship

|May 2025

Successfully completed a certified internship focused on ServiceNow platform fundamentals, including incident management, workflow automation, and UI policy scripting. Gained hands-on experience in creating and managing ServiceNow instances for organizational use.
